- English (Intermediate)

## PROFILE

As a skilled Flutter developer, I create intuitive and visually appealing user interfaces and ensure seamless data management through efficient API integration. I excel in team environments, contributing to high-quality Flutter applications with responsive layouts, state management solutions, and optimized performance. I stay updated with the latest Flutter advancements to continuously improve app functionality and user satisfaction.

## PROJECTS

NFC App Project

Gym App

School Lms App

## WORK EXPERIENCE

### The Tuitionist

06-2024 - PRESENT

Flutter Developer

- Teachers can efficiently manage classes, track student progress, and provide personalized support. Students have easy access to learning materials, can participate in class chats, and view their grades and feedback to improve their performance.

### PlanD Studios

07-2023 - 05-2024

Jr Flutter Developer

- The NFC app allows users to read and write data on NFC tags seamlessly. It enables quick data exchange and storage by simply tapping the device on an NFC tag.
