COMSATS University

Bachelor, Software Engineering

- **Grade:** *Distinction*

Islamabad, Pakistan

March.2020 – Jan.2024

WORK EXPERIENCE

DevEntia Tech

Software Engineer (Frontend)

Islamabad, Pakistan

dec.2023 – Jan.2024

- Proficient in React.js, utilizing these frameworks to create dynamic and responsive user interfaces.
- Strong understanding of modern frontend development practices and technologies.
- Proven ability to resolve frontend bugs in existing websites, utilizing strong diagnostic skills, thorough root cause analysis, and collaboration with cross-functional teams, ensuring optimal performance.
- Efficient use of Git and GitHub for version control and collaborative coding workflows.
- Collaborated with DevOps teams to integrate and automate frontend deployment processes, ensuring a seamless CI/CD pipeline from code repositories to production.

FYP (ARTSELLO)

Software Engineer (full stack)

Islamabad, Pakistan

Jan.2023-Dec.2023

- Completed my final year project in E-commerce Mobile App in React Native and Fire store as a Database for art enthusiast to sell their Art related products online.
- Proficient in utilizing React Native to develop cross-platform mobile applications, ensuring a consistent and responsive user experience for Android platforms.
- Implemented RESTful APIs and integrated them seamlessly with the front-end to create a cohesive and interactive user experience.
- Actively collaborated across the entire development stack, from designing user interfaces with React Native to architecting and implementing server-side logic with Node.js.
- Collaborated with team mates to develop an End-to-End Product.
