

Hadi Ur Rehman

Frontend Developer

✉ hadirehman346@gmail.com 🔗 <https://www.linkedin.com/in/hadi-rehman878b0227a> 📍 Islamabad

SUMMARY

I'm a seasoned Frontend developer with more than a year of experience working with ReactJS. Enjoy working with team members and ability to collaborate effectively with senior Developers. Building responsive websites. Proficient with multiple CSS Frameworks and have extensive knowledge of UI/UX and user psychology.

EXPERIENCE

Frontend Developer

Zoqo Technologies

📅 2022 - Present 📍 Islamabad

- Developing interactive and dynamic web applications using React.js, harnessing its component-based architecture to create modular, maintainable code
- Leveraging modern JavaScript (ES6+) features to enhance user experiences and ensure efficient data handling within React applications.
- Developing visually appealing and responsive interfaces by integrating HTML5 and CSS3, with a keen eye for design and user experience.
- Seamlessly integrating external APIs through Fetch and Axios, coupled with robust state management solutions, such as Redux, to ensure data consistency and a smooth user experience.
- Implementing performance optimization techniques like code splitting and lazy loading to enhance application speed and efficiency.
- Collaborating seamlessly with cross-functional teams using Git and GitHub, ensuring version control and smooth project workflows.
- I implemented robust localization capabilities at the frontend, ensuring seamless user experiences across multiple languages.

Junior Frontend Developer

Eziline Software House

📅 2021 - 2022 📍 Islamabad

- Gaining practical experience in HTML5 and CSS3 to create well-structured web pages and responsive designs
- Developing a solid understanding of JavaScript, with a focus on ES6+ features, and applying them to create interactive components.
- Gaining practical experience in HTML5 and CSS3 to create well-structured web pages and responsive designs.
- Building user interfaces using React.js, focusing on learning and applying fundamental concepts like components, props, and state management.
- Learning to make API requests using Fetch and Axios, and getting started with state management using local component state

EDUCATION

MSC in Computer Science

University of Peshawar

📅 2019 - 2022 📍 Peshawar

SKILLS

React Js

React Native

Redux

Redux toolkit

Redux Toolkit Query

Rest Api

Firebase

Tailwind Css

Ant Design

Material UI

Chakra UI

Github

JavaScript

STRENGTHS

Cross-functional Teamwork

Experience collaborating with cross-functional teams to develop feature development across many software projects

Self-starter

Proven ability to work independently, manage multiple projects simultaneously leading to timely, accurate results

PROJECTS

Food Ordering Website & Admin Panel

Social Media Admin Panel

Event Organizaer Admin Panel

Real State Website

Car Rental Website

AI & Organization evaluation Website
