## SKILLS

HTML5

CSS3

Javascript

ReactJs

Bootstrap

MaterialUi

## LANGUAGES

Urdu

Native or Bilingual Proficiency

English

Full Professional Proficiency

## INTERESTS

Coding

Arts

Cricket

## EDUCATION

### Bachelor's of science in software engineering

Iqra University Islamabad Campus

08/2018 - 09/2022

Islamabad

Final Year Project

▫ Visual Tutor Website

## CERTIFICATES

### Front End Web Development (08/2018 - 10/2018)

I learned the basics of all the technologies of front end web development. After that, I built some projects to enhance my skills and now I am so confident in front end technologies and I can make any type of front end design in ReactJS.

### Backend with PHP (09/2022 - 12/2022)

I enrolled my self in Web development academy to learn backend web development. I learned the basic syntax of PHP, including variables, data types, and control structures and how to use PHP to process form data and interact with databases.

## PERSONAL PROJECTS

### Online Learning Website (01/2022 - 08/2022)

▫ It is a web application for students and teachers. Teachers can sell their courses and skills by teaching students. Students can easily enroll in any course paying specific teacher. In other words, this website is like udemy or coursera website.

### Disney Clone using ReactJS (09/2022 - 09/2022)

▫ A Disney website clone is a digital platform that mimics the look, feel, and functionality of the official Disney website. It typically offers a similar user experience, with sections for movies, TV shows, theme parks, and merchandise, as well as games and activities for children.

### Tesla Clone using ReactJS (09/2022 - 09/2022)

▫ A Tesla website clone is a digital platform that closely resembles the official Tesla website in terms of design, functionality, and user experience. It typically features sections showcasing Tesla's electric vehicles, energy products, and company news and updates.

### Online Store using ReactJS (10/2022 - 10/2022)

▫ This is a web application built by using reactjs main concepts (components, useReducer Hook, useContext Hook, useState Hook, useEffect Hook, fetch API). In this website, users can search products and filter products according to price range, category, brand and by colors as well. There is also a functionality of adding products to shopping cart where cart product is save in local storage

### Personal portfolio using ReactJS (11/2022 - 11/2022)

▫ A portfolio website is an online platform that showcases my work, skills, and achievements. It typically includes sections for recent projects, services, testimonials, and a contact us page
