Profile
Carreer and Success

I'm a highly creative Web Designer with over a decade of experience in front-end development and 6 years of hands-on expertise in WordPress and Shopify. I specialize in building user-centric, visually refined digital experiences that align with business goals. I'm now seeking a supervisory role where I can lead high-profile projects, mentor teams, and continue growing in a challenging, innovation-driven environment.

Technical Skills
Software to Hardware Knowledge

Through self-learning & professional experience, I have developed a professional level of proficiency with many industry-standard technologies.

Category	Year(s) of Experience	Proficiency
Shopify theme development and customization	6 years	Advance
Wordpress theme development and customization with elementor and custom	6 years	Advance
HTML 5 / CSS 3 / Bootstrap / Responsive / Tailwind css /Javascript / Jquery	10 years	Advance
Photoshop / Adobe illustrator / Dreamweaver / vs code	10 years	Advance

Competencies
Teamwork to Professional Development

Teamwork	I am able to work effectively in a team environment, including autonomous decision-making and team leadership where necessary. This is vital to the success of most projects.
Communication	I have strong verbal and written communication skills, which are important for a dynamic, efficient team environment.
Creativity & innovation	I have always felt a strong need to express my artistic side and experiment with new ideas: this translates to creative vision, determination and commitment.

Problem Solving	Critical and lateral thinking skills are required in this rapidly changing industry of constantly changing standards and new software tools.
Knowledge of production process	From my cross-disciplinary background, I have developed an understanding of the overall production process and how each job fits into the larger context of multimedia development.
Professional development	To be successful in the multimedia industry demands a constant enthusiasm for ongoing learning and technical development. I have an active personal interest in researching and using the newest technologies, while maintaining skills in the current standards.
